The screenshot displays the 'Add Device' interface in the IBM Watson IoT Platform. The top navigation bar includes tabs for 'Add', 'Browse', 'Action', 'Device Types', and 'Interfaces'. The left sidebar contains various navigation icons. The main content area features a progress bar with four steps: 'Identity', 'Device Information', 'Security', and 'Summary'. The 'Device Information' step is currently active. Below the progress bar, there is a form with the following fields:

- Device Type:** NodeMCU
- Device ID:** 200101
- Serial Number:** 1
- Model:** NodeMCU

A 'View Metadata' button is located below the form fields. The page also includes a 'Security Token' section with the text 'To be generated'.
